Dear Movement Disorders Enthusiast,

We are very proud to announce our 12th symposium this year - after the long break due to the pandemic it is almost a must to enjoy our great talks and the fascinating and instructive videos you will be able to see!

As usual, we start with the highlight of the Video Session on Thursday evening, followed by a very instructive programme on Friday - our internationally renowned speakers are Mark Hallett from Washington DC, Mark Edwards from London, Hans Georg Landwehrmeyer from Ulm, Hans Jung from Zurich and Janis Miyasaki from Montreal.

After its warm welcome during the previous years, we will continue with the „Swiss Young Neurologists“ session, this year given by Andreas Meyer from Zurich.

Last but not least we hear what worthwhile projects were funded by Parkinson Schweiz and we will be able to honor the winner of the Best Movement Disorders Paper Award for 2021 and 2022.

Don't leave before Stefan Hägele-Link and Julien Bally have brought you up to speed concerning the best papers and videos published this year.

We are very much looking forward to seeing you in Lucerne.

Daniel Waldvogel, Francois Vingerhoets, Claudio Bassetti, Christian Lüscher, Selma Aybek and Christian Baumann
